

KISHWAUKEE COLLEGE
real opportunity

Transfer Program: Chemistry

Curriculum Guide – Advisement Code No. 119

THE PROGRAM

The Chemistry program at Kishwaukee College prepares students interested in pursuing a degree in chemistry or a pre-professional science-based program (e.g., pre-med or pre-pharmacy) at a four-year college or university. The program consists of the core course sequences in chemistry and the physics and mathematics traditionally required in most bachelor degree programs. In addition, by completing the requirements for the Associates of Science degree at Kishwaukee College, students entering a four-year public university in Illinois will have fulfilled the General Education requirements at that institution.

Check with the four-year college or university you plan to transfer to for specific course transferability and school requirements.

For a listing of the complete A.S. degree requirements, see the Mathematics, Science and Business Division Office or the Kishwaukee College catalog. The recommended courses listed should be reviewed with a College advisor/counselor to determine applicability toward Kishwaukee College degree requirements as well as bachelor degree requirements of the four-year institution to which the student will transfer. All graduation and degree requirements for the Kishwaukee College A.S. degree must be satisfied.

Transfer Program: Chemistry

Curriculum Guide – Advisement Code No. 119

In addition to fulfilling the general education requirement for an A.S. Degree, the following courses are recommended for an emphasis in Chemistry.

Chemistry Core Courses

CHE 210	General Chemistry I	(5)
CHE 211	General Chemistry II	(5)
CHE 270	Organic Chemistry I	(3)
CHE 271	Organic Chemistry II	(3)

Not all courses may be required for all specialization areas. Additional courses may be required for certain specialization areas. Check with the transfer institution for specific program requirements.

Science

PHY 250	General Physics I and	(4)
PHY 251	General Physics II OR	(4)
PHY 260	Physics for Science & Engineering I and	(5)
PHY 261	Physics for Science & Engineering II	(5)

Additional courses may be required for certain specialization areas. Check with the transfer institution for specific program requirements.

Mathematics

MAT 229	Calculus and Analytic Geometry I	(5)
MAT 230	Calculus and Analytic Geometry II	(4)
MAT 231	Calculus and Analytic Geometry III	(4)
MAT 260	Differential Equations	(3)

Other general education or major courses specific to the transfer institution.
