

KISHWAUKEE COLLEGE  
*real opportunity*

## Transfer Program: Pre-Veterinary

*Curriculum Guide – Advisement Code No. 137*

### THE PROGRAM

The Pre-Veterinary program at Kishwaukee College prepares students interested in pursuing a degree in Pre-Veterinary Sciences at a four-year college or university with the long-term goal of admission to a College of Veterinary Medicine. The Kishwaukee College program consists of the core courses in biology, chemistry, physics and mathematics traditionally required in most bachelor degree programs, as well as animal science coursework. In addition, by completing the requirements for the Associate of Science degree at Kishwaukee College, students entering a four-year public university in Illinois will have fulfilled the general education requirements at that institution.

Check with the four-year college or university to which you plan to transfer for specific course transferability and school requirements.

For a listing of the complete A.S. degree requirements, see the Career Technologies Division Office or the Kishwaukee College catalog. The recommended courses listed should be reviewed with a College advisor/counselor to determine applicability toward Kishwaukee College degree requirements as well as bachelor degree requirements of the four-year institution to which the student will transfer. All graduation and degree requirements for the Kishwaukee College A.S. degree must be satisfied.

# Transfer Program: Pre-Veterinary

In addition to fulfilling the general education requirement for an A.S. Degree, the following courses are recommended for an emphasis in Pre-Veterinary.

### **Agriculture Core Courses**

AGT 100 Orientation to Agricultural Careers (1)
